Please find below a communication from the EXAMINER in charge of this application  
Commissioner of Patents

1. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 C.R.F. § 1.821(a)(1) and (a)(2). A computer readable form (CRF) of the sequence listing was submitted. However, the content of the Sequence Listing, filed January 14, 2002 does not correspond to the content of Figure 18. For instance, claims 2 and 3 are drawn to the IRTA1 and IRTA2 proteins as set forth in figure 18A (SEQ ID NO:1) and 18B (SEQ ID NO:3), respectively. However, both SEQ ID NO:1 and SEQ ID NO:2 are polynucleotides consisting of 90 nucleotides. In addition Claims 4, 5 and 6 are drawn to the IRTA3, 4 and 5 proteins as set forth in figures 18C (SEQ ID NO:5), 18D (SEQ ID NO:7) and 18E (SEQ ID NO:9) as 734, 524 and 339 amino acid residues, respectively. However, the Sequence Listing indicates that SEQ ID NO:5, 7 and 9 are 518, 728 and 591 amino acid residues, respectively. Appropriate correction of the Sequence Listing, the CRF or the specification, is required.
2. Any questions regarding compliance with the sequence rules requirements specifically should be directed to Mark Spencer at 703-308-4212.
3. Applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, from the mailing date of this notice, whichever is longer, within which to supply the correction in order to avoid abandonment. EXTENSIONS OF THIS TIME LIMIT MAY BE GRANTED UNDER 37 CFR 1.136(a).
